

Table Error! No text of specified style in document.-1. Properties of the *Miscellaneous Elements* for Archive Message Retrieval Request

<i>Miscellaneous Element</i>	Required / Optional	Description	Field in Msg, if applicable
ME1	Required	Component name of Responder	DESTINATION-COMPONENT from header
ME2	Not used		
ME3	Not used		

Table Error! No text of specified style in document.-2. Properties of the *Miscellaneous Elements* for the Archive Message Retrieval Response

<i>Miscellaneous Element</i>	Required / Optional	Description	Field Origination in Msg, if applicable
ME1	Required	Component name of Requestor	DESTINATION-COMPONENT from header
ME2	Required	Status type supplied by Responder	RESPONSE-STATUS

Table Error! No text of specified style in document.-3. Properties of the *Miscellaneous Elements* for the Directive Request Message

<i>Miscellaneous Element</i>	Required / Optional	Description	Field in Msg, if applicable
ME1	Required	Component name of Responder	DESTINATION-COMPONENT from header
ME2	Optional	A keyword the receiving process could use for filtering	DIRECTIVE-KEYWORD
ME3 ...	Not used		

Table Error! No text of specified style in document.-4. Properties of the *Miscellaneous Elements* for the Directive Response Message

<i>Miscellaneous Element</i>	Required / Optional	Description	Field Origination in Msg, if applicable
ME1	Required	Component name of Requestor	DESTINATION-COMPONENT from header
ME2	Required	Status type supplied by Responder	RESPONSE-STATUS

Table Error! No text of specified style in document.-5. Properties of the *Miscellaneous Elements* for the Configuration Status Message

<i>Miscellaneous Element</i>	Required / Optional	Description	Field in Msg, if applicable
ME1	Required	Component name of Publisher	COMPONENT from header
ME2	Optional	Component name of destination	DESTINATION-COMPONENT from header

Miscellaneous Element	Required / Optional	Description	Field in Msg, if applicable
ME3 ME4	Optional	Component destination: The two <i>miscellaneous elements</i> may be used to direct the message to a specific destination, as necessary, in Header String format. ME3 = destination node ME4 = destination facility	

Table Error! No text of specified style in document.-6. Properties of the *Miscellaneous Elements* for the Control Message

Miscellaneous Element	Required / Optional	Description	Field in Msg, if applicable
ME1	Required	Component name of Publisher	COMPONENT from header
ME2	Optional	Component name of destination	DESTINATION-COMPONENT from header
ME3 ME4	Optional	Component destination: The two <i>miscellaneous elements</i> may be used to direct the message to a specific destination, as necessary, in Header String format. ME3 = destination node ME4 = destination facility	n/a
ME5	Optional	A keyword the receiving process could use for filtering	"CNTL-KEYWORD" from msg content

Table Error! No text of specified style in document.-7. Properties of the *Miscellaneous Elements* for the Device Message

Miscellaneous Element	Required / Optional	Description	Field in Msg, if applicable
ME1	Required	Component name of Publisher	COMPONENT from header
ME2	Optional	Component name of destination	DESTINATION-COMPONENT from header
ME3 ME4	Optional	Component destination: The two <i>miscellaneous elements</i> may be used to direct the message to a specific destination, as necessary, in Header String format. ME3 = destination node ME4 = destination facility	n/a

Table Error! No text of specified style in document.-8. Properties of the *Miscellaneous Elements* for the Heartbeat Message

Miscellaneous Element	Required / Optional	Description	Field in Msg, if applicable
ME1	Required	Component name of Publisher	COMPONENT from header

Miscellaneous Element	Required / Optional	Description	Field in Msg, if applicable
ME2	Optional	Component name of destination	DESTINATION-COMPONENT from header
ME3 ME4	Optional	Component destination: The two <i>miscellaneous elements</i> may be used to direct the message to a specific destination, as necessary, in Header String format. ME3 = destination node ME4 = destination facility	n/a

Table Error! No text of specified style in document.-9. Properties of the *Miscellaneous Elements* for the Resource Message

Miscellaneous Element	Required / Optional	Description	Field in Msg, if applicable
ME1	Required	Component name of Publisher	COMPONENT from header
ME2	Optional	Component name of destination	DESTINATION-COMPONENT from header
ME3 ME4	Optional	Component destination: The two <i>miscellaneous elements</i> may be used to direct the message to a specific destination, as necessary, in Header String format. ME2 = destination component or group ME3 = destination node ME4 = destination facility	n/a

Table Error! No text of specified style in document.-10. Properties of the *Miscellaneous Elements* for the Replay Telemetry Request Message

Miscellaneous Element	Required / Optional	Description	Field in Msg, if applicable
ME1	Required	Component name of Responder	DESTINATION-COMPONENT from header
ME2	Not used		
ME3	Not used		

Table Error! No text of specified style in document.-11. Properties of the *Miscellaneous Elements* for the Replay Telemetry Response Message

Miscellaneous Element	Required / Optional	Description	Field Origination in Msg, if applicable
ME1	Required	Component name of Requestor	DESTINATION-COMPONENT from header
ME2	Required	Status type supplied by Responder	RESPONSE-STATUS

Table Error! No text of specified style in document.-12. Properties of the *Miscellaneous Elements* for the Mnemonic Value Request Message

<i>Miscellaneous Element</i>	Required / Optional	Description	Field in Msg, if applicable
ME1	Required	Component name of Responder	DESTINATION-COMPONENT from header
ME2	Not used		

Table Error! No text of specified style in document.-13. Properties of the *Miscellaneous Elements* for the Mnemonic Value Response Message

<i>Miscellaneous Element</i>	Required / Optional	Description	Field Origination in Msg, if applicable
ME1	Required	Component name of Requestor	DESTINATION-COMPONENT from header
ME2	Required	Status type supplied by Responder	RESPONSE-STATUS

Table Error! No text of specified style in document.-14. Properties of the *Miscellaneous Elements* for the Archive Mnemonic Value Request Message

<i>Miscellaneous Element</i>	Required / Optional	Description	Field in Msg, if applicable
ME1	Required	Component name of Responder	DESTINATION-COMPONENT from header
ME2	Not used		

Table Error! No text of specified style in document.-15. Properties of the *Miscellaneous Elements* for the Archive Mnemonic Value Response Message

<i>Miscellaneous Element</i>	Required / Optional	Description	Field Origination in Msg, if applicable
ME1	Required	Component name of Requestor	DESTINATION-COMPONENT from header
ME2	Required	Status type supplied by Responder	RESPONSE-STATUS

Table Error! No text of specified style in document.-16. Properties of the *Miscellaneous Elements* for the Command Request Message

<i>Miscellaneous Element</i>	Required / Optional	Description	Field in Msg, if applicable
ME1	Required	Component name of Responder	DESTINATION-COMPONENT from header
ME2 ...	Not used		

Table Error! No text of specified style in document.-17. Properties of the *Miscellaneous Elements* for the Command Response Message

<i>Miscellaneous Element</i>	Required / Optional	Description	Field Origination in Msg, if applicable
<i>ME1</i>	Required	Component name of Requestor	DESTINATION-COMPONENT from header
<i>ME2</i>	Required	Status type supplied by Responder	RESPONSE-STATUS

Table Error! No text of specified style in document.-18. Properties of the *Miscellaneous Elements* for the Product Request Message

<i>Miscellaneous Element</i>	Required / Optional	Description	Field in Msg, if applicable
<i>ME1</i>	Required	Component name of Responder	DESTINATION-COMPONENT from header
<i>ME2</i>	Not used		

Table Error! No text of specified style in document.-19. Properties of the *Miscellaneous Elements* for the Product Response Message

<i>Miscellaneous Element</i>	Required / Optional	Description	Field Origination in Msg, if applicable
<i>ME1</i>	Required	Component name of Requestor	DESTINATION-COMPONENT from header
<i>ME2</i>	Required	Status type supplied by Responder	RESPONSE-STATUS
